# Uue faili loomine

Uue dokumendi kasutusotstarve

The image shows the 'New Document' dialog box in Adobe InDesign. It is annotated with red lines and text in Estonian. The dialog box is titled 'New Document' and contains several sections: 'Document Preset' (set to '[Default]'), 'Intent' (set to 'Print'), 'Number of Pages' (set to '1'), 'Start Page #' (set to '1'), 'Page Size' (set to 'Letter'), 'Orientation' (set to 'Portrait'), 'Columns' (set to '1'), 'Gutter' (set to '1p0'), 'Margins' (Top, Bottom, Inside, and Outside all set to '3p0'), and 'Bleed and Slug' (checked). At the bottom, there is a 'Preview' checkbox (checked), 'OK', and 'Cancel' buttons. Red lines connect the following Estonian labels to specific elements in the dialog box: 'Uue dokumendi kasutusotstarve' points to the 'Intent' dropdown; '2 lehte üksteise kõrval' points to the 'Facing Pages' checkbox; 'Lehe formaat' points to the 'Page Size' dropdown; 'Püsti või pikali?' points to the 'Orientation' icons; 'Alusraamistik' points to the 'Columns' section; 'Alusraamistiku vahele jääv ruum' points to the 'Gutter' field; 'Eelvaade enne dokumendi loomist' points to the 'Preview' checkbox.

2 lehte üksteise kõrval

Lehe formaat

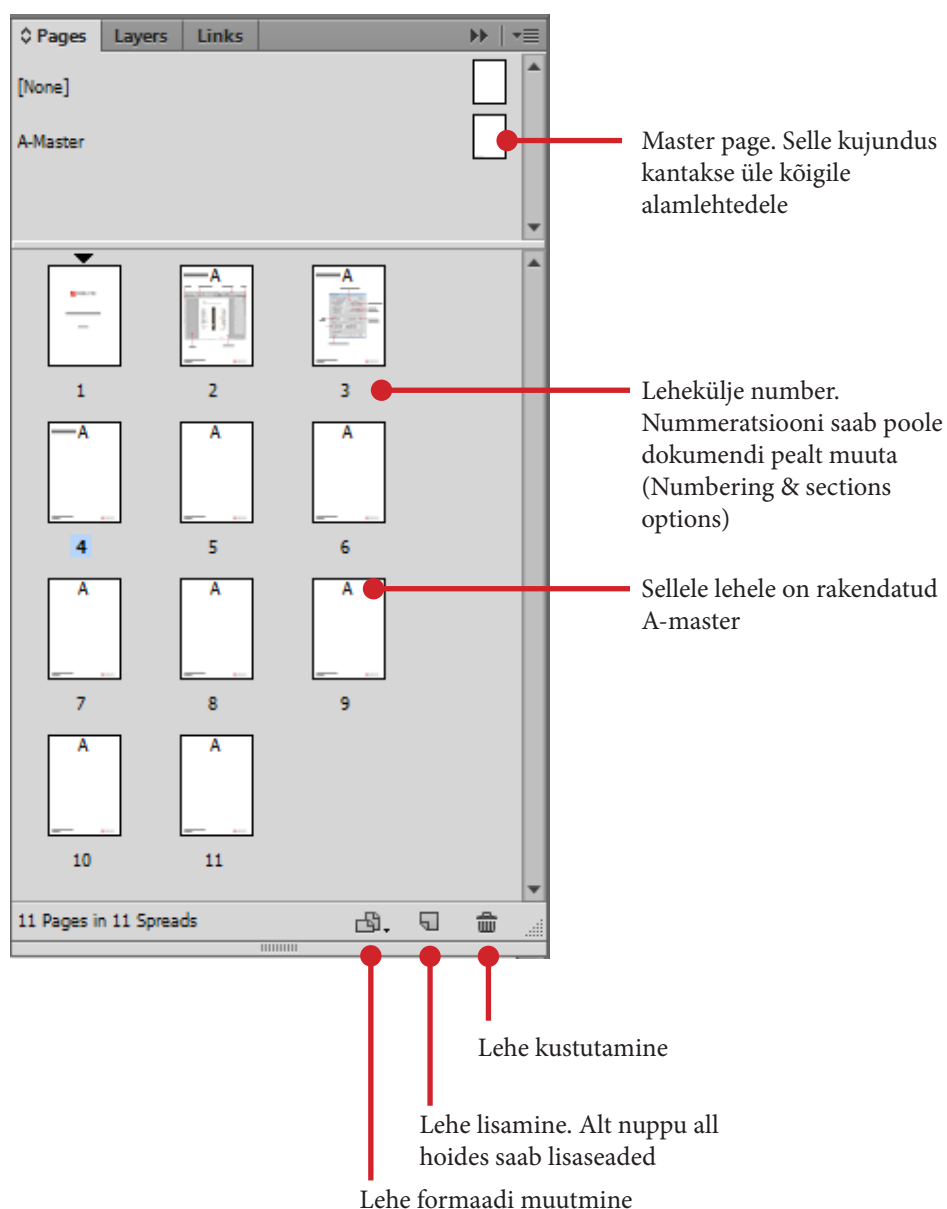

Püsti või pikali?

Alusraamistik

Alusraamistiku vahele jääv ruum

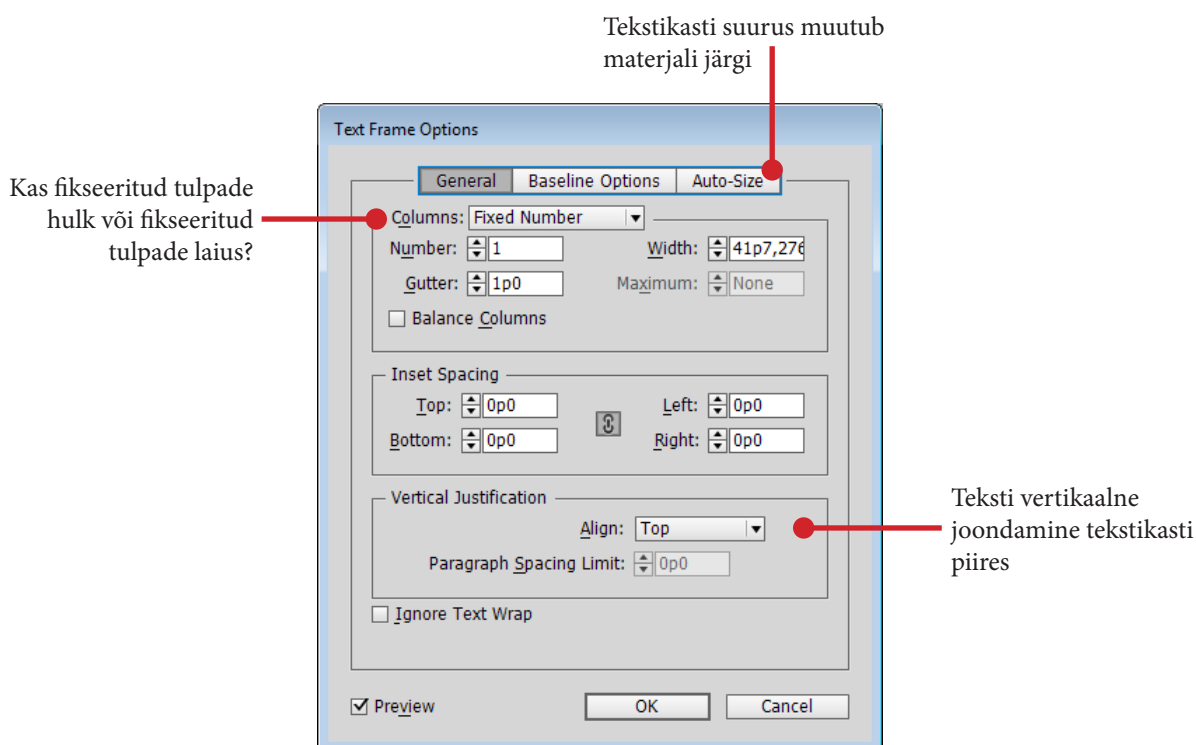

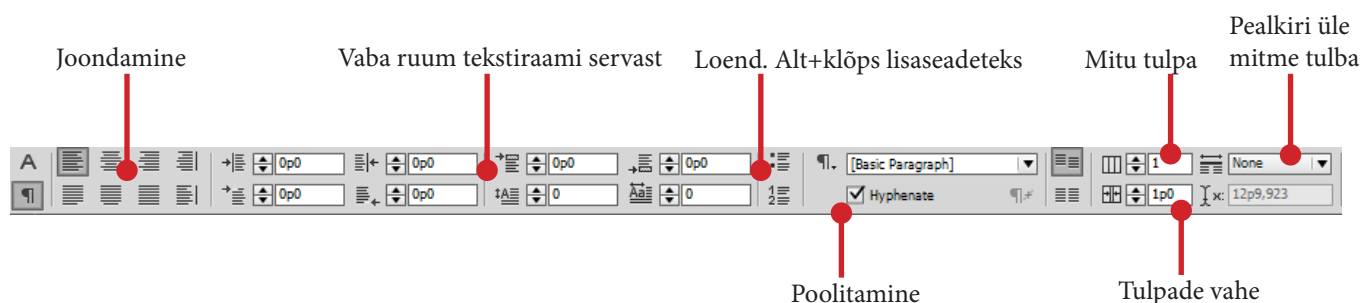

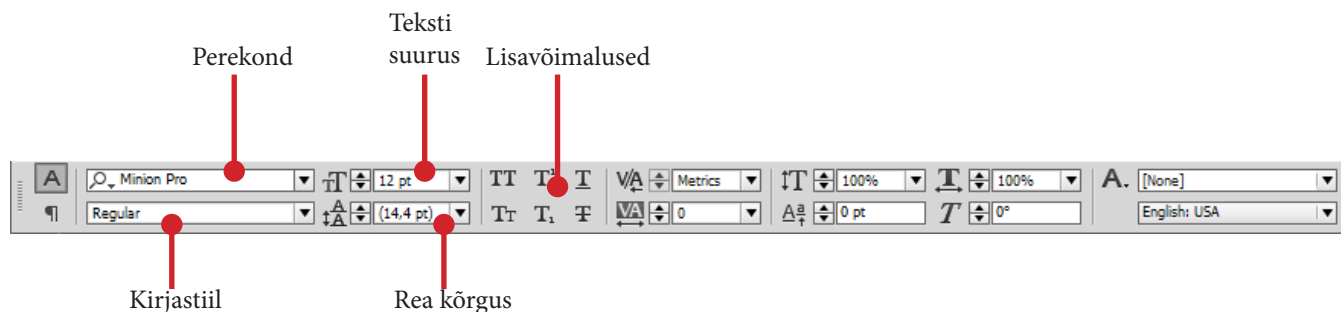

Eelvaade enne dokumendi loomist

# Lehekülgede haldus

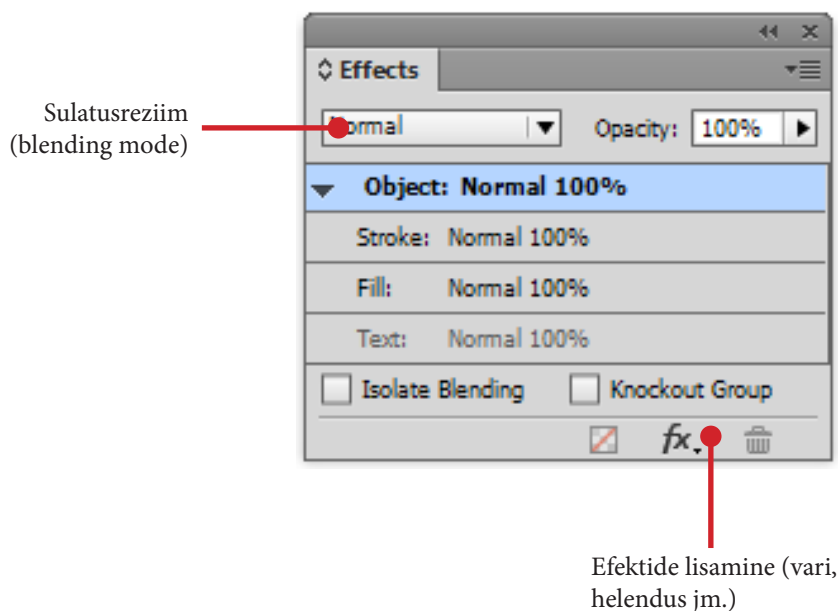

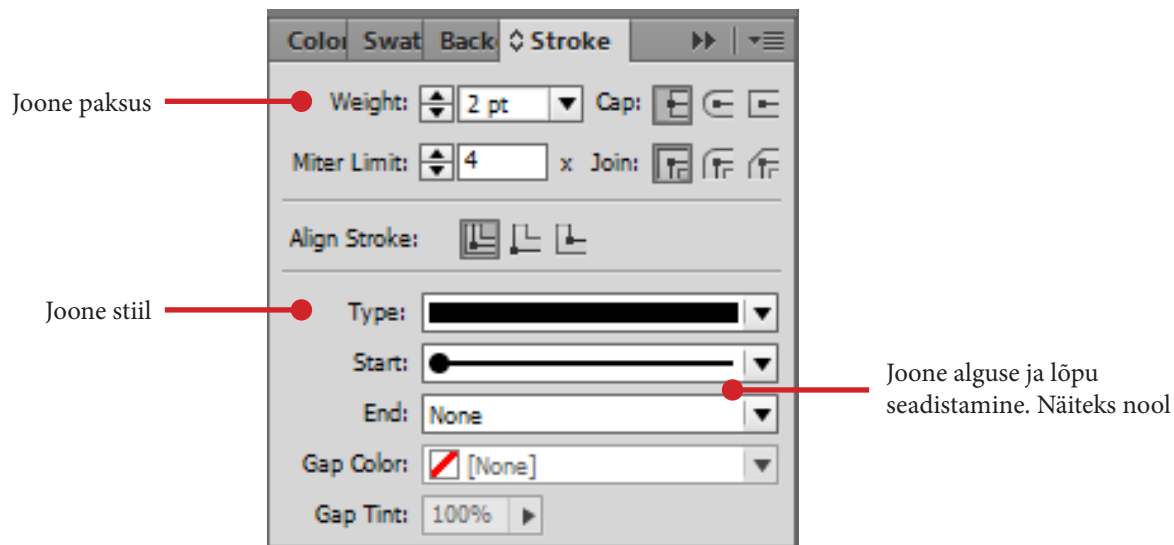

# Töötamine tekstidega.

Teksti peal olles Cntrl+Y avab Story editor. (edit menüüst -> Story editor).
